KPK Series - PR1725/PR1705

High-Performance cut-off solutions

# KPK Series

**NEW**

Promo Code:

KPK Promo 042020

Easy insert replacement reduces downtime. High performance, long tool life and stable machining with strong clamping mechanism.

Brochure

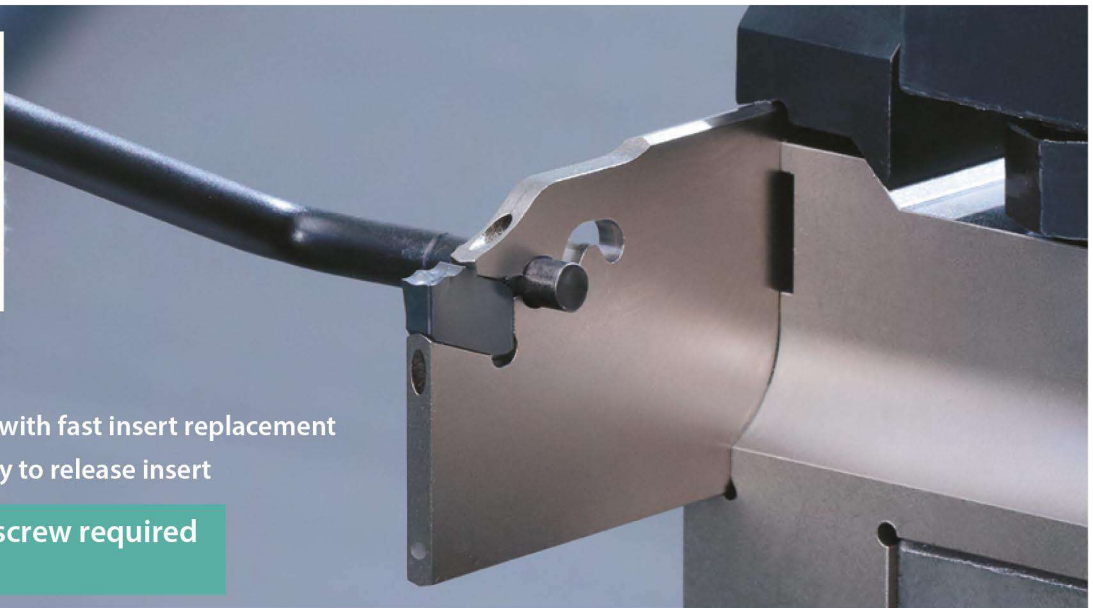

## 1 Easy insert replacement

Click or scan  
for promotion video

Reduce down time with fast insert replacement  
Turn wrench slightly to release insert

No hammer or screw required  
Self-clamping

## 2 Firm insert clamp ensures added safety and security

## 3 Unique chipbreaker for long tool life and stable machining

## 4 Rigid tool holder block prevents chattering and provides internal coolant

KPKTB-JCT  
with coolant holes

**Purchase 10 inserts and receive a special discount.**

Different grade can be mixed to reach the required insert quantity. KPKTB type: required quantity: 30 pcs inserts.

PVD coating for small parts machining

# PR17 series

**NEW**

Promo Code:

PR17 series Promo 042020

1st recommendation for steel machining. Excellent surface finish and long tool life.  
Great performance in small parts machining applications.

Newly developed PVD coating MEGACOAT NANO PLUS

## PR1725

Great for machining steel and other materials  
Wide range of machining applications with various chipbreakers available

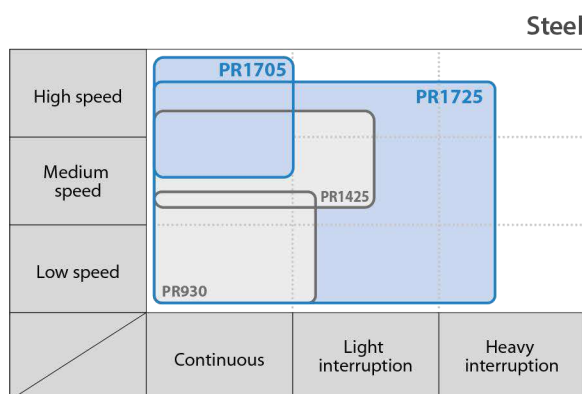

## PR1705

Excellent wear resistance and high precision  
machining of free-cutting steel

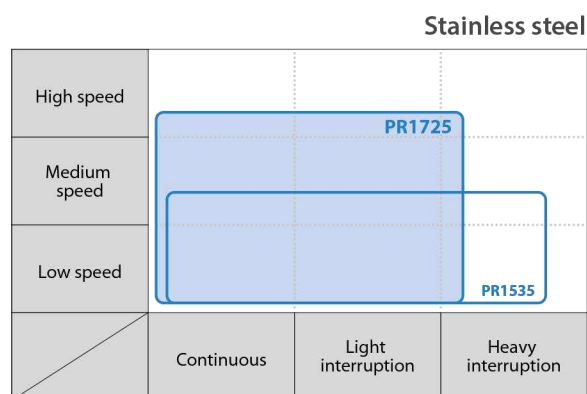

### Applicable to a wide range of machining applications

Good performance in both steel and stainless steel from low to high speed machining.

PR1725: 1st recommendation for steel machining

PR1705: 1st recommendation free-cutting steel

PR1725: For general purpose high-speed machining

PR1535: 1st recommendation for stainless steel machining  
Long tool life and high quality machining

**Purchase 30 inserts and receive 10 inserts of the same grade free of charge.**

**Purchase 100 inserts and receive 40 inserts of the same grade free of charge.**

Inserts must be from the same grade. Different chipbreaker can be mixed to reach the required insert quantity.
